--- SUMMARY & OBJECTIVE ---

Computer Science student at BINUS University with strong foundations in Full-Stack web development, backend systems, and modern responsive user interfaces. Passionate about building intuitive, high-performance web systems and learning models. Seeking Full-Stack Developer Internship Opportunities (2026).

--- EDUCATION ---

* BINUS University (2024 - Present)
  Bachelor of Computer Science (B.Comp.Sc.)
  Focus: Full-Stack Web Development, Data Structures, Algorithms, AI Systems

--- CORE TECHNICAL SKILLS ---

* Languages: TypeScript, JavaScript, Go, PHP, Python, SQL, HTML5/CSS3
* Frontend: React 19, Next.js (App Router), Tailwind CSS v4, Responsive Design
* Backend: Laravel 12, Go standard library, Flask, RESTful APIs, WebSockets (Reverb)
* Databases & Tools: PostgreSQL, MySQL, SQLite, Git, Vite, Postman, Linux

--- NOTABLE PROJECTS ---

1. FitnessVals Ecosystem (2026)
   - Hybrid gym & health management architecture combining Laravel 12 & Go 1.25
   - Real-time client-server communication using Laravel Reverb WebSockets
   - Responsive UI built with Tailwind CSS v4 and Vite 7
2. EduBot: Learning Style Analyzer (2025)
   - Supervised ML classification model diagnosing student VAK learning modalities
   - Flask API server delivering real-time inferences with an interactive UI
3. De Bouquets & WebCV Platforms (2024 - 2025)
   - Interactive storefronts and responsive portfolio platforms

--- STATUS & AVAILABILITY ---

* Status: Open for Full-Stack Developer Internship Opportunities (2026)
* Note: Official formatted PDF will be updated as new academic milestones are achieved.
